#

About Company

Medical Rescue Team South Authority (MRTSA), which provides EMS to Baldwin Twp, Castle Shannon, Dormont, Green Tree, Mt. Lebanon and Whitehall, is announcing that it is expanding its Child Safety injury prevention program to include a “Risky Teen Behavior” prevention program.

MRTSA has developed a “Risky Teen Behavior” prevention program to its list of educational classes. MRTSA has developed this program to educate parents about the “activities” that pre-teen and teenage children already know too much about and participate in. The program is also aimed at educating children as to what can happen if children attempt to participate in these “Risky Teen Behaviors”, such as *huffing*, *dusting* and *self- mutilation*. To schedule a presentation please contact Paramedic Josh Stuart at 412-343-5111.

For more information about MRTSA, please visit www.MRTSA.com, or call 412-343-5111.
